

Kyle D. Bathgate, Ph.D.

Assistant Professor
Department of Civil and Environmental Engineering and Science
School of Science and Engineering
Duquesne University Cell: 618-305-0365
Fisher Hall 2nd Floor Email: bathgatek@duq.edu
711 Forbes Avenue Web: <https://kylebathgate.github.io/>
Pittsburgh, PA 15219 [Google Scholar Profile](#)

EDUCATION

Ph.D. Civil Engineering

August 2026

The University of Texas at Austin

- Dissertation: Modeling the Resilience of Maritime Freight Transportation Systems Using Anchorage Queues
- Committee: Stephen Boyles (advisor), Randy Machemehl, C. Tyler Dick, Kenneth N. Mitchell, Alison Conway

M.S.E. Civil Engineering

May 2021

The University of Texas at Austin

- Thesis: Resilience through Risk Assessment: A Conceptual Framework for Extreme Weather Risk Assessment of the Texas Port System
- Advisor: Zhanmin Zhang

B.S.E. Civil Engineering with High Honors

May 2019

University of Illinois Urbana-Champaign

- Concentrations: Transportation and hydrology

HONORS AND AWARDS

- Volunteer Excellence Award, TRB Sustainability and Resilience Young Member Council (2025)
- Dwight David Eisenhower Transportation Fellow, FHWA (2020, 2023, 2024)
- Talbot S. Huff, Sr. Highway Engineering Graduate Fellowship, UT Austin (2024)
- Jack E. Leisch Fellowship, ASCE Transportation and Development Institute (2023)
- Best Paper for 2023 by AMR20, the TRB Standing Committee on Disaster Response, Emergency Evacuations, and Business Continuity (2023)
- Mary Kate Collins Memorial Endowed Presidential Scholarship in Civil Engineering, UT Austin (2023)
- Charles W. Merritt Endowed Graduate Fellowship in Engineering, UT Austin (2019-2023)
- Campus Honors Program (Chancellor's Scholar), University of Illinois (2015-2019)
- Tau Beta Pi Engineering Honors Society, University of Illinois Chapter (initiated Spring 2017)
- Chi Epsilon Civil Engineering Honors Society, University of Illinois Chapter (initiated Fall 2016)

TEACHING EXPERIENCE

Instructor

2026-Present

Duquesne University

- CIVE 301/MECH 301 Data Analysis, Fall 2026
- CIVE 331 Transportation Engineering, Fall 2026

Teaching Assistant

2024-2025

The University of Texas at Austin

- CE 311S Probability and Statistics for Civil Engineers, Spring 2025 and Fall 2025
- CE 321 Transportation Systems, Spring 2024

Guest Lecturer

2021-2026

The University of Texas at Austin

- Courses: CE 311 S Probability and Statistics for Civil Engineers, CE 321 Transportation Systems, CE 392 N1 Infrastructure Systems Management
- Topics: infrastructure resilience and interdependencies, budget planning and budget allocation, statistics in civil engineering case study

ADVISING EXPERIENCE

Undergraduate students mentored

- Dylan Croteau, UT Austin (2024)
- Richard Lee, UT Austin (2021)

RESEARCH EXPERIENCE

Assistant Professor, PI

2026-Present

Duquesne University

Graduate Research Assistant

2019-2026

Center for Transportation Research (CTR) at the University of Texas at Austin

- Resilient Infrastructure and Smart Cities (RISC) Lab, PI: Zhanmin Zhang, 2019-2023
- Simulation, Pricing, Adaptive Routing, and Traffic Assignment (SPARTA) Lab, PI: Stephen Boyles, 2023-Present

Undergraduate Research Assistant

2017-2019

University of Illinois Urbana-Champaign, PI: Jeffery Roesler

- R1 **K. Bathgate**, J. Sun, S. Pan, S. Balakrishnan, Z. Zhang, M. Murphy, Z. Han, and L. Loftus-Otway. Creating a Resilient Port System in Texas: Assessing and Mitigating Extreme Weather Events – Final Report. Technical Report FHWA/TX-22/0-7055-1, Center for Transportation Research at The University of Texas at Austin, Austin, TX, May 2022. URL <https://library.ctr.utexas.edu/ctr-publications/0-7055-1.pdf>

SPONSORED RESEARCH

“Develop Multi-Modal Maritime-Rail-Roadway Transportation Model for the Texas Inland and Intercoastal Waterways,” sponsored by the Texas Department of Transportation, PI: Stephen Boyles and C. Tyler Dick, awarded \$197,000 (Jan 2026 – Dec 2026)

- Led project proposal authorship team
- Developed a statewide multimodal freight model for Texas
- Collected freight commodity, volume, and routing data across road, rail, and maritime modes

- Conducted risk assessments to quantify impacts of disasters on Texas freight network
- Tested scenarios using the simulation to understand travel time variations and identify critical links
- Upcoming

“Evaluating Texas Ports Readiness and Opportunities for Alternative Fuels,” sponsored by the Texas Department of Transportation, PI: Andrea Gold and Anna McAuley, awarded \$429,000 (Sep 2025 – Aug 2027)

- Assisted with proposal authorship
- Investigated the readiness of Texas ports to alternative fuels
- Conducted stakeholder outreach to collect data on system fuel capabilities
- Identified gaps and opportunities to address shortcomings in alternative fuel systems at Texas ports
- Developed a tool to assess the readiness of a port to alternative fuels
- In progress

“Data-Driven, Multimodal Freight Modeling for Waterways and Ports,” sponsored by the Coastal and Hydraulics Laboratory of the US Army Corps of Engineers Research and Development Center, PI: Stephen Boyles, awarded \$160,125 (Sep 2023 – Dec 2024)

- Established initial contact with project sponsor
- Led project proposal authorship team
- Processed and integrated data from multiple transport modes for simulation purposes
- Identified bottlenecks in multi-modal freight networks through discrete event simulation
- Simulated disruption scenarios to examine resilience and recovery bottlenecks
- Produced 1 technical report, 5 publications (in progress), and 5 conference presentations

“Define a Statewide Plan for a Sustainable Real-Time Travel Time Network for Texas Hurricane Evacuations and Safe Citizen Return,” sponsored by Texas Department of Transportation, PI: Zhanmin Zhang and Stephen Boyles, awarded \$399,870 (Sep 2021 – Jan 2024)

- Led project proposal authorship team
- Surveyed past hurricane evacuation participants and decisionmakers in Texas
- Modeled evacuation network and identified corridors for traffic monitoring system expansion
- Prioritized traffic monitoring device upgrade and expansion using asset management methods
- Produced 1 technical report, 2 publications, and 2 conference presentations

“Creating a Resilient Port System in Texas: Assessing and Mitigating Extreme Weather Events,” sponsored by the Texas Department of Transportation, PI: Zhanmin Zhang, awarded \$317,000 (Jan 2020 – Dec 2021)

- Collected data from port stakeholders to understand existing resilience and shortcomings
- Created framework to assess port vulnerability, exposure, and risk to extreme weather events
- Estimated economic impacts of hurricanes of varying intensity on Texas ports
- Developed Excel-based tool (PortRESECO) for stakeholders to assess port resilience
- Recommended action items for port stakeholders to implement to improve resilience capabilities
- Produced 1 technical report, 2 publications, and 3 conference presentations

SOCIETY SERVICE

Transportation Research Board (TRB)

Standing Committee affiliations:

- AED13 Freight Data, **Member**
- ACF18 Transportation System Resilience and Security, Friend
- AEP13 Transportation Network Analysis, Friend
- AT012 Freight and Logistics Planning and Modeling, Friend
- AW011 Port Operations and Infrastructure, Friend

American Society of Civil Engineers (ASCE)

Student Presidential Group (SPG)

- Transportation and Development Institute (T&DI) Representative (2024-2025)
- Transportation and Development Institute (T&DI)
- International Conference on Transportation & Development (ICTD), Student Volunteer Committee Chair (2022-2023)
- University of Illinois Student Chapter
- Concrete Canoe Team Design Captain (2017-2019)
 - Concrete Canoe Paddling Team Member (2017-2018)
 - Secretary (2017-2018)
 - Outreach Chair (2016-2017)

Graduate Student Advisory Board (GSAB)

- University of Texas at Austin, Department of Civil, Architectural, and Environmental Engineering
- Transportation Representative (2020-2022)

Intelligent Transportation Society of America (ITS)

- University of Texas Student Chapter
- Member (2019-Present)
 - President (2019-2021)
 - UT CAEE GSAB Liason (2021-2022)

Institute of Transportation Engineers (ITE)

- University of Texas Student Chapter
- Member (2019-Present)
- University of Illinois Student Chapter
- President (2018-2019)
 - Secretary (2017-2018)

Folk and Roots Club (The Pickin' Illini)

- University of Illinois Registered Student Organization for bluegrass music performance
- President (2016-2017)

REFeree SERVICE

Conference Referee:

- Transportation Research Board
- AMR10, Standing Committee on Critical Infrastructure Protection
 - AMR20, Standing Committee on Emergency Response, Business Continuity, and Evacuations
 - AMR50, Standing Committee on Extreme Weather and Climate Change Adaptation
 - AM000, Sustainability and Resilience Group Young Member Council
 - AED50, Standing Committee on Artificial Intelligence and Advanced Computing Applications
 - AED70, Standing Committee on Freight Transportation Data

Journal Referee:

- Environmental Earth Sciences
- Journal of Computing in Civil Engineering
- Journal of Infrastructure Systems
- Journal of Management in Engineering
